Here's my little timeline for this Vehicle/Starship sheet for Star Wars Saga Edition (SWSE).

First version 1.0

07-4-07        There it is! My version of the Vehicle/Starship sheet. Since there is no original version (from WOTC) of it, I have made this one by using the character sheet design from them. So we know only by look at which game it belongs! It could have been something else like other versions already on the Net but it was a personal choice to do it this way, including the color in it!

Second version 1.1

07-5-07        Already some corrections! Misspelling (again but hey, not that bad for a French speaking guy!), addition of specific speed area and a crew positions space on the bottom. Write your infos the way you want in that space.

If you like sheet, use it! Leave your comments on WOTC forum!
